Attn.: Refund Department - Facsimile No.: (571) 273-6389

Dear Sir:

Pursuant to 37 CFR §1.2b, applicant respectfully requests a refund of the extension fee.

The facts are as follows. On August 3, 2005, an Office Action was issued by the U.S. Patent and Trademark Office ("PTO"), to which a reply was due three months from the mailing date. A copy of the Office Action is enclosed herewith for your reference.

In response to the Office Action, we filed a Response to Election Requirement on November 16, 2005. A copy of the response as filed is enclosed herewith for your reference. The response was accompanied by a Petition for an Extension of Time Under 37 CFR §1.136(a), requesting that the time for filing a response to the Office Action be extended for one month from November 3, 2005 to December 3, 2005. The \$60.00 extension fee for a small entity was submitted with the petition. A copy of the petition as filed, together with a copy of Check No. 7035 in the amount of \$60.00 and the return-receipt postcard submitted with the petition setting forth the November 16, 2005 mailing date and stamped by the PTO with a November 21, 2005 received date are enclosed herewith for your reference.

However, it is respectfully advised that the PTO erroneously charged an additional \$450.00 to our deposit account, which is the total PTO fee for filing a petition for a three month extension of time for a small entity. A copy of our Deposit Account Statement for November 2005 is enclosed herewith for your reference. Accordingly, a refund in the amount of \$450.00 to our Deposit Account No. 500518 is respectfully requested.

This Request for Refund is being submitted within two (2) years of the date of the timely payment of the full fee and therefore a refund of the excess amount is appropriate.

Respectfully submitted,

1. At the outset, applicant is advised that originally only claims 1-8 were present in the application and that in the preliminary amendment the newly presented claims have been renumbered according to 37 CFR 1.126 (in other words, claims 11-21 have been renumbered to 9-20). It should be noted that in the preliminary amendment two claim 11s appeared. Applicant is advised in the future to correct the numbering of the claims to reflect that claims 9-20 are the pending claims (with the corrected numbers). Applicant is additionally advised that for purposes of the restriction requirement provided herein below the numbering will follow the numbering corrected in accordance with 37 CFR 1.126 (i.e. claims 9-20 are pending).

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 9-17, drawn to a method of making a placemat, classified in class 156, subclass 63.
- II. Claim 18, drawn to a placemat, classified in class 40, subclass 773.
- III. Claims 19 and 20, drawn to a method of using a placement, classified in class 156, subclass 63.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process

Application/Control Number: 10/630,202
Art Unit: 1733

Page 3

(MPEP § 806.05(f)). In the instant case the method can be used to make a materially different article such as a placement which does not contain a hinge.

4. Inventions II and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed could be used as a display for the selected items placed upon the adhesive base and need not be placed upon a table and used in the manner claimed.

Additionally, the method of using the article could utilize a materially different article which does not contain the identified hinge in the assembly as required in the article of manufacture.

5. Inventions I and III are related as process of making and process of using the product. The use as claimed can be practiced with a materially different product. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. More specifically, the use claims could be practiced with the article of Group II. Additionally, the article made in accordance with Group I could be used in a materially different process such as the decoration of a wall with a wall display which included attachment of the placement to a wall to display the items disposed between the adhesive base sheet and the cover material.

Application/Control Number: 10/630,202
Art Unit: 1733

Page 4

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
8. A telephone call was made to Dona Edwards on 8-2-05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.
